-

HOST BOX: The “brains” are located here. You will have some variation of the picture below.

*The network diagram on the last page details where the cables are plugged

Press Box Station

*The host box and RCK stays with the filmer

Press Box Setup

*Press box antennas should not cross each other's path and should have a clear line of sight to their counterparts

*This station requires two power outlets

STATION BOX: Your parts may vary slightly from the pictures below.

*This box contains all of the equipment for the field

End Zone Station and Setup

*Be sure the antenna has a clear and straight line of sight to the press box antenna

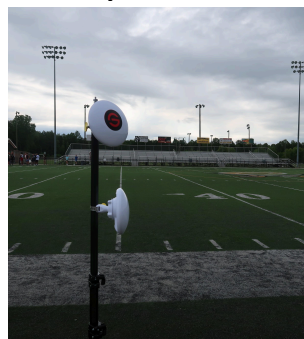

*This station requires two power outlets

Home & Visitor Sideline Stations

*Each sideline station has a powertube with a stickered antenna and a "wifi" antenna.

Home & Visitor Sideline Setup

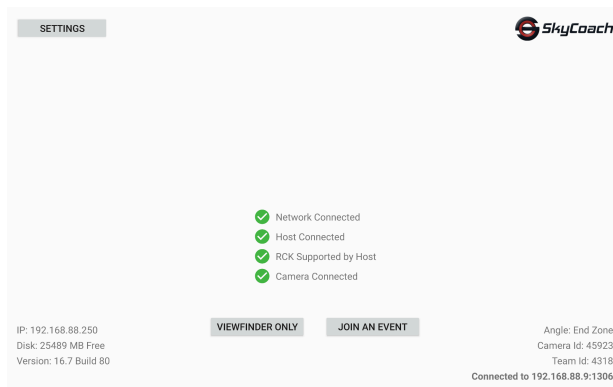

*Station should be placed at 35 yd line, farthest from bleachers, with a clear & straight line of sight to press box antenna

*Point the wifi access point down the sideline towards your ios devices

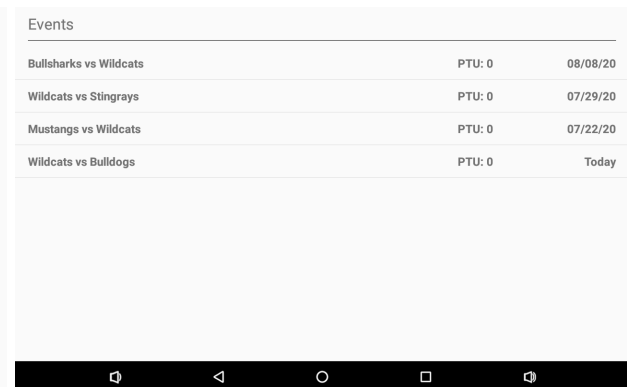

*You will need 1 power outlet for each station

RCKs - Remote Camera Kits

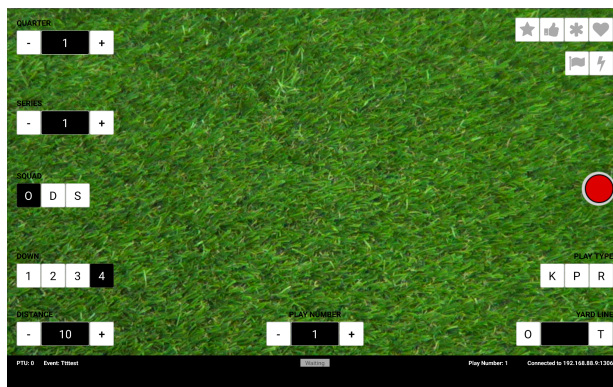

*Each RCK will receive its hdmi signal from each of the cameras and connect to the ethernet cables labeled 'RCK Only'

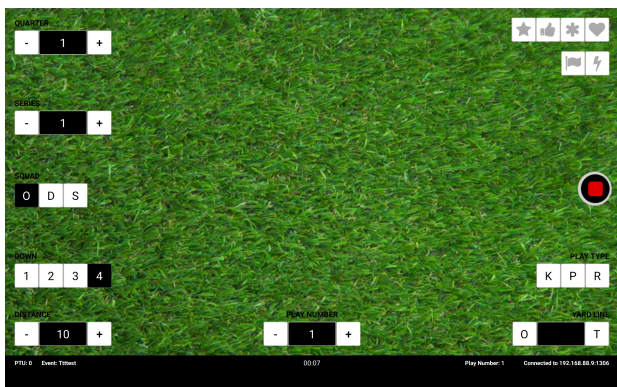

*select JOIN AN EVENT

*select the correct event for TODAY

***Waiting** to start recording, so press the red circle

*select O,D, or S **before** you click the square to stop recording

*The pictures on this sheet are to be used as a guide. Training will confirm positions and locations.
